PROFESSIONAL SUMMARY

Motivated CS student at Khwaja Fareed University with hands-on experience in Python, data analysis, and full-stack web development. Completed a Python internship applying Pandas, NumPy, and ML concepts. Built 5 real-world projects including a Hospital Management System, SaaS Billing UI, and a personal Portfolio. Seeking a junior developer or data analyst opportunity to contribute and grow.

EDUCATION

BS Computer Science *Sep 2023 – Present (Expected 2027)*

Khwaja Fareed University of Engineering & Information Technology, Rahim Yar Khan

WORK EXPERIENCE

Python Development Intern | Tech Internship Program *2024*

- Applied Pandas & NumPy for data cleaning, transformation, and analysis on real-world datasets.
- Implemented basic ML models and preprocessing pipelines under senior mentor guidance.
- Contributed to team mini-projects covering data analysis and model-building workflows.

PROJECTS

Hospital Management System | *Flask · Python · HTML · CSS · JavaScript*

- Built a full-stack app with modules for patient registration, doctor management, and appointment scheduling.
- Used Flask for backend routing and REST API design; HTML/CSS/JS for a fully responsive frontend.

Subscription Billing UI (SubscriptX) | *HTML · CSS · JavaScript*

- Designed a frontend-only SaaS billing interface with plan selection, billing summary, and invoice view screens.
- Focused on pixel-perfect UI, responsive layout, and smooth user experience across devices.

Job Fair Management System | *Python · HTML · CSS · JavaScript*

- Created a web-based system to manage job fair registrations, company listings, and student applicant records.
- Implemented search and filter features to help students find relevant companies at the fair.

ATM Machine Simulator | *Python*

- CLI-based ATM simulation supporting balance inquiry, cash deposit, withdrawal, and PIN verification.
- Applied input validation, exception handling, and structured session management.

Personal Portfolio Website | *HTML · CSS · JavaScript · Netlify*

- Designed and deployed a fully responsive personal portfolio showcasing projects, skills, and contact info.
- Hosted live on Netlify at nadiayousafportfolio.netlify.app with clean UI and smooth navigation.

TECHNICAL SKILLS

Languages: Python, JavaScript, HTML, CSS

Libraries & Frameworks: Pandas, NumPy, Flask

Tools: VS Code, Google Colab, Git, GitHub, Netlify

Concepts: OOP, Data Preprocessing, Basic Machine Learning, REST APIs, Responsive Design
